Educational Implication of Internship

Introduction -

The internship program is designed to provide students engaged in a field experience with an opportunity to share their insight to explore the link between students academic preparation and their field work and to assist participate in developing and carrying out major research project which will serve to culminate their internship experience.

Activities done during Internship-

The internship program is designed to provide students engaged in a field experience with an opportunity to share their insight to explore the link between students. During the internship many activities done by students. In their Rangoli competition, Kho-Kho competition, speech competition, Drawing competition are take. all the students are participated in the various activities. they get the inspiration to taking participation for various competition in their future.

In this activities we give the three numbers of students for each activity and give them the wonderful gifts for this students are so happy. for this. This is very memorable events. in life during internship.

Educational Implication-

Through this activity record and register maintained by school office we know about its hospitality in learning and teaching.

We know about the record of human factors and infrastructure and other things are kept by school office. we know about the facilities of students and teachers getting from government. It help to maintain records & register in futures.

Conclusion-

The school internship programme was one of the most memorable experience of my life. during the period of internship I have got various experience of real life classroom situation. I have come to know about the rules and regulation of school.

I have come to know about the supervision and monitoring of school. I observed various activities of the school like prayer, assembly timetable management, role of teacher in various activity.

Opinion of the Student Teacher

Overall, Internship is a really good programme and recommended to all being. It help to enhance and develop my skill, abilities and knowledge the Internship programme was viewed as a real opportunity to improve the teaching skill.

It was the most enjoyable period of time. It exclusively brought out inherent teacher in me. the Internship programme aim to proved the opportunity to consolidate through practical experience. It provide direct learning experience on various role of a teacher including teaching the subject. In this internship period I could accumulate a lot of experience. I learn about school management and committee, which is responsible for making the perspective and annual work plans at the school level. I explored various research related to knowledge, skill and experiences that a teachers need to have in order to become an excellent teacher.

Educational Implication of Internship

Introduction -

Internship programme in teacher education is very important to keep the trainees into an effective teacher of tomorrow. It provides not only practice teaching but opportunities to participate in activities of the school like a regular teacher. An internship programme for teacher training should be adopted because the internship mode is firmly based on the primary value of teaching skill by practice over a period of time.

Activities done during Internship-

Students are expected to contribute to day work at the organisation. Possible internship activities include attending department meeting, assisting a school with relevant course workshop or lecture & testing product or tools.

Different tasks were done by me to upgrade myself such as research for a new project, learn more about competition, figure of better system, create a presentation, keep an organised work space, complete additional training, sit in on silent meeting, help with brain storming session.

Various activities were conducted for students in this entire internship programme such as -

Drawing Competition
Speech Competition
Rangoli Competition
tho-kho Competition

As this activity was conducted to upgrade student physically as well as mentally.

Educational Implication-

Through the activity records and registers maintained by school office we know about it helpfully in learning & teaching.

We know about the record of human factor & information & other things are kept by school life. We know about the activities about student and teachers getting from government.

It helps to maintain records & registers in future.

Conclusion-

The internship programme has been a very useful experience for me. I can safely say that my understanding of the job environment has increased greatly. However, I do think that there are some aspects of the job that I could have done better and that I need to work on.

Name of the student:- Mr./Ms. Priya Bha Roll No:- _____

Opinion of the Student Teacher

Nav Sahyadri Charitable Trust College of education gave an opportunity to participate in the internship programme.

As student of B. Ed Curriculum (20-) it was a great experience to have undergone this internship programme for one month at innovative international school Chakan.

From this in internship I come to know how much efforts dedication taken to run a school. We convey our deep regards respects to all the teachers administration and managers in the field of education.

We can directly see the influence of a teacher has on the tender lives of students. Best teachers can touch the heart of many students how inspire teachers can be in in needed for life long that can also be seen.

After this internship helping them learn and growth new concept due to inter training with students taught us not.
